(b) what remedial measures Government propose to take to reduce the edible oil import 1990-91?

THE MINISTER OF STATE IN THE MINISTRY OF FOOD AND CIVIL SUPPLIES (SHRI RAM PUJAN PATEL): (a) The quantum of import of edible oils during 1990-91 will largely depend on the production of edible oilseeds in the ensuing kharif season. The other factors to be considered in deciding import of edible oils will be prices of indigenous oils, availability of foreign exchange for this purpose and prices of edible oil in the international market. As such it is not possible to indicate the extent of import bill for 1990-91.

(b) A multi-pronged strategy has already been adopted by the Government to increase the production of edible oils in the country so as to attain self-sufficiency in the edible oil requirements, at the earliest. This includes raising the production of oilseeds in the country through better use of technology and improved seeds, better availability of inputs and extension services. Measures also include provision of minimum support price for edible oilseed couples with MIO by NDDB with a view to protecting the interest of the producers on the one hand and that of consumers on the other hand.
